

NBIC ACS Stage 2 – Bushfire Fuel Classification fuel types map release 2.0

National Bushfire Intelligence Capability (NBIC) metadata sheet

The following table provides descriptions of BFC grid values.

BFC class number	BFC class name
110	Tall, closed forest
120	Closed forest
210	Tall open forest
220	Open forest
230	Low open forest
310	Broadleaf plantation
321	Radiata pine
322	Maritime pine
323	Southern pine
324	Other conifer
330	Other plantation
411	Tall woodland with grassy understory
421	Woodland with shrubby understory
422	Woodland with spinifex understory
423	Woodland with grassy understory
424	Woodland with sparse understory
431	Low woodland with shrubby understory
432	Low woodland with spinifex understory
433	Low woodland with grassy understory
434	Low woodland with sparse understory
510	Tall shrubland
520	Shrubland
531	Open shrubland with spinifex understory
532	Open shrubland with grassy understory
533	Open shrubland with sparse understory
610	Sedgeland
620	Hummock grassland
631	Grassland
632	Open grassland
633	Sparse grassland
640	Croplands
700	Horticulture
800	Wetlands

910	Water
920	Wildland urban interface 1
930	Wildland urban interface 2
940	Wildland urban interface 3
950	Built-up
960	Bare ground
